

Nemesia hybrids 'Sunsatia'

Sunsatias provide winter and spring colour and with regular trimming will provide many more months of flowers. Plants have vigorous growth and plenty of flowers with large blooms.

Size: 25cm high, 30cm wide **Position:** full sun
Water: keep moist but not wet **Soil:** well drained
Uses: hanging baskets or pots.

Lomandra 'Lime Wave'

Bright yellow flowers that appear from summer to autumn contrast beautifully with the bright green weeping foliage.

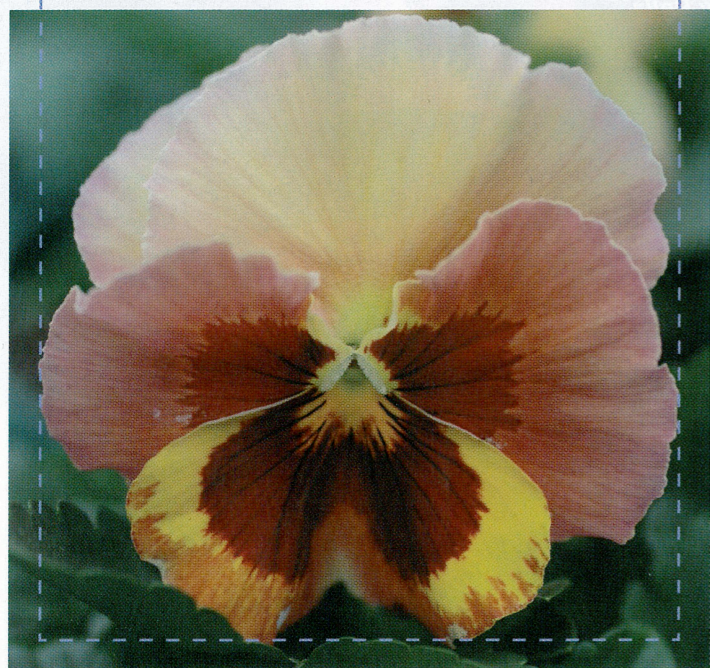

Size: 60cm high, 60cm wide
Position: full sun
Water: once established, minimal watering
Soil: well drained
Uses: mass planting, containers and rock gardens.

Copper Shower

Masses of bronzy orange coloured flowers adorn this light green hybrid aloe in autumn and winter from a young age.

Size: 1m high, 60cm wide
Position: full sun
Water: drought tolerant once established
Soil: free draining
Uses: border plant, rockeries and container planting.

'Gelato' Pansy Mix

This stunning mix of colourful pansies look good enough to eat. These cool weather flowers with overlapping petals have dark face-like centre markings.

Size: 20cm high, 30cm wide **Position:** full sun, will tolerate part shade with less flowering
Water: daily in hot weather **Soil:** fertile and well drained
Uses: mass displays, borders and potted colour.

Euphorbia 'Diamond Frost'

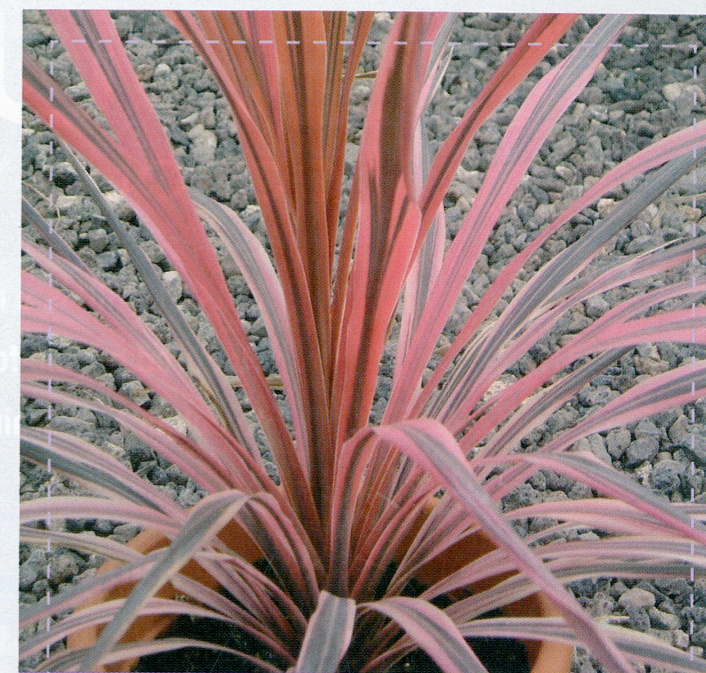

Don't be fooled by the delicate appearance of 'Diamond Frost'. This is one of the toughest plants around. This small evergreen shrub is constantly smothered with masses of small white flowers.

Size: 40cm high, 60cm wide **Position:** sun to part shade
Water: once established, minimal watering **Soil:** well drained
Uses: large containers and baskets, mixed borders and as a bedding plant.

Always Red

An incredibly long flowering plant, this medium sized hybrid aloe continues to produce spears of shiny blood red flowers in summer, autumn and winter.

Size: 60cm high, 40cm wide
Position: sun
Water: drought tolerant once established
Soil: free draining
Uses: mass planting or container growing.

Cordyline australis 'Southern Splendour'

The sword-like leaves are coral pink with centres that are grey-green in colour. In late spring and summer 'Southern Splendour' will produce small, sweet smelling flowers.

Size: 3m high, 2m wide **Position:** sun to part shade
Water: drought tolerant once established, protect from harsh sun
Soil: well drained **Uses:** feature plant and tropical gardens.

Jasmine 'Southern Stars'

The flowers of 'Southern Stars' are quite large for a jasmine, white with pink blushes that are very fragrant and particularly noticeable in the evening when the air is still. This easy-to-grow evergreen has attractive glossy green foliage year-round.

Size: spreads to about 1.5m **Position:** sun to part shade
Water: keep moist until established **Soil:** add compost
Uses: hedging, espaliered against a fence and screening.
